

Management and regulation of port concessions

International Seminar

Targeted audience

The program of the seminar was conceived for a broad audience which could be made up as well of administrative staff and executives of public firms, confronted with the installation of operations of partnership in the port sector, as managers of private firms, candidates with these operations of partnership.

Objectives

By the end of the seminar, the participants will have acquired sufficient knowledge to enable them to progress significantly in the development and the establishment of port concessions in their own countries. The seminar will guide the participants with competencies necessary to regulate the problems arising from the new economic environment of the sector.
